Professional Summary

Results-driven Software Engineer with 6 years of experience in developing and maintaining ERP systems using Spring Boot and Laravel. Expertise in designing scalable web services, API development, and database management. Skilled in collaborating with teams using Git, Jira, and Slack. Adept at leveraging modern tools and technologies like ChatGPT to enhance productivity and deliver secure, user-friendly solutions.

Professional Experience

Software Engineer (Spring Boot & Laravel)
Zone Delivery Services | Jan 2021 – Present (4 years)

- Developed and maintained ERP web services using Java Spring Boot.

- Managed modules such as Company License, Vehicle License, Visa Processing, and Advertisement Permits.

- Designed APIs using Swagger and conducted database optimization with MySQL Workbench.

- Utilized tools like Git, GitHub, Jira, and Postman for efficient collaboration.

- Incorporated ChatGPT to streamline workflows and enhance productivity.

Key Achievements:

- Delivered robust modules like RTA and COD Collection to streamline business processes.

- Ensured seamless integration of APIs with comprehensive documentation.

Software Engineer (Laravel)
Ringer Soft | Oct 2019 – Jan 2021 (1 year, 4 months)

- Enhanced ERP modules using Laravel and MySQL, adding new features to improve usability.

- Provided client support and resolved issues promptly, ensuring customer satisfaction.

- Refactored and optimized code structures for improved performance.

Key Achievements:

- Successfully delivered scalable, user-friendly ERP solutions with integrated new features.

- Collaborated effectively using GitLab and Slack.

Junior Software Engineer (Laravel)
CGIT | Nov 2018 – Sep 2019 (11 months)

- Designed and developed responsive web applications using Laravel and MySQL.

- Managed interactive features with jQuery and responsive designs using Bootstrap.

- Streamlined task tracking and collaboration through Trello and Slack.

Key Achievements:

- Delivered high-quality web applications on time and within budget.

Web Designer & Developer
Corporate Solution | Apr 2017 – Oct 2017 (7 months)

- Designed and developed responsive websites using WordPress and Bootstrap.

- Optimized websites for SEO to improve search engine rankings.

- Created graphics and promotional materials using Adobe Illustrator and Photoshop.

Key Achievements:

- Improved client visibility online through SEO and responsive design.
